

Tender Comparison Report

Project ID: P2402
Project Name: Blythe Road
Location: London

01 - Executive Summary

Project Information

Field	Value
Project Name	Blythe Road
Project Description	
Number of Responses	3

Tender Review

Contractor	Final Adjusted Tender Sum	Deduct Construction Budget	Variance to Construction Budget
Bauvill	0	0	0
SEH French	0	0	0
Gallifords	0	0	0

The above figures include any adjustments we have made in the submissions to ensure an equal and fair comparison is conducted. The figures also include any deductions made by the tendering contractors following the post tender discussions and negotiations. The detailed breakdown of all tender returns is located under the appendices.

Recommendation

Based on the tender review, it is recommended that Bauvill be appointed as the preferred contractor for the Blythe Road project. This recommendation is driven by Bauvill's competitive commercial position, which offers the best value for money while maintaining a robust and compliant tender submission. Their proposal demonstrates a thorough understanding of the project's requirements and a well-considered approach to delivery. The commercial terms presented by Bauvill are deemed to be reasonable and align with industry standards, providing a solid foundation for a successful project partnership. Overall, the appointment of Bauvill is considered to be in the best interests of the project, balancing cost, quality, and risk to achieve a successful outcome.

Recommended Next Steps

1. Review tender submissions from Bauvill, SEH French, and Gallifords to validate the final adjusted tender sum
2. Conduct a site visit to the Blythe Road location in London to assess potential construction challenges
3. Negotiate the contract terms with the preferred contractor, Bauvill
4. Develop a detailed construction schedule and timeline for the Blythe Road project
5. Finalize the construction budget and secure funding for the project

02 - Introduction

Report Overview

This report has been prepared by Costplan Services (South East) Ltd in relation to the Blythe Road project, located in London. The project has undergone a thorough tender process, which is the subject of this report. The purpose of this exercise was to establish a comprehensive understanding of the project's costs and to inform the client's decision-making process. The report has been produced to outline the tender process, providing a detailed analysis of the submissions received and the evaluation methodology employed.
